

Mock Test for**DUET Undergraduate Admissions – 2021 (FREE)**

**This Test has been conducted by Aptitude Testing Service
Pakistan in collaboration with Dawoodian Media &
Opportunities Network**

TEST FORMATION TEAM

1. **Faiz Muhammad Shah (CSE 19Fall) – DUET**
2. **Basit Ali (EE 19Fall) – DUET**
3. **Ayesha Areej (EE 19Fall) – DUET**
4. **Abdul Rehman (CH 19) – DUET**
5. **Muhammad Hamza (MME 20F) - DUET**
6. **Safdar Hussain (BSCS 18) – SUKKUR IBA**
7. **Shahzad Ahmed Shaikh (ES 19) -MUET**
8. **Aaqib Raza (EL 18) – MUET**
9. **Saira Majeed (PHARM-D 19) - PUMHS**

This test has been conducted on September 12, 2021, at 6:00 pm via Google Form by Aptitude Testing Service Pakistan, Opportunities Network & Dawoodian Media.

This test has 4 parts for each category of Pre engineering, Pre medica & Computer Science students.

- For Pre engineering students 4 parts are: English, Physics, Mathematics & Chemistry
- For Pre medical students 4 parts are: English, Physics, Biology & Chemistry
- For Computer science students 4 parts are: English, physics, Mathematics & Computer science

This test is completely free, made for help of students.

Best of luck for your admission, see you soon in campus 😊

ENGLISH – Part-I (for P.E, P.M, CS)

Read the passage and answer the questions from 1 to 10

When we are young, we learn that tigers and sharks are dangerous animals. We might be scared of them because they are big and powerful. As we get older, however, we learn that sometimes the most dangerous animals are also the smallest animals. In fact, the animal that kills the most people every year is one that you have probably killed yourself many times: the mosquito.

While it may seem that all mosquitoes are biters, this is not actually the case. Male mosquitoes eat plant nectar. On the other hand, female mosquitoes feed on animal blood. They need this blood to live and produce eggs. When a female mosquito bites a human being, it transmits a small amount of saliva into the blood. This saliva may or may not contain a deadly disease. The result of the bite can be as minor as an itchy bump or as serious as death.

Because a mosquito can bite many people in the course of its life, it can carry diseases from one person to another very easily. Two of the most deadly diseases carried by mosquitoes are malaria and yellow fever. More than 700 million people become sick from these diseases every year. At least 2 million of these people will die from these diseases.

Many scientists are working on safer and better ways to kill mosquitoes, but so far, there is no sure way to protect everyone in the world from their deadly bites. Mosquito nets can be placed over beds to protect people against being bitten. These nets help people stay safe at night, but they do not kill any mosquitoes. Mosquitoes have many natural enemies like bats, birds, dragonflies, and certain kinds of fish. Bringing more of these animals into places where mosquitoes live might help to cut down the amount of mosquitoes in that area. This is a natural solution, but it does not always work very well. Mosquitoes can also be killed with poisons or sprays. Even though these sprays kill mosquitoes, they may also harm other plants or animals.

Although mosquitoes may not seem as scary as larger, more powerful animals, they are far more dangerous to human beings. But things are changing. It is highly likely that one day scientists will find a way to keep everyone safe from mosquitoes and the diseases they carry.

1. According to the author, some people are more afraid of tigers and sharks than mosquitoes because tigers and sharks

- | | |
|-------------------------------------|----------------------------|
| A. Kill more people than mosquitoes | B. Are big and powerful |
| C. Are found all over the world | D. Have no natural enemies |

2. Based on the information in paragraph 2, we can understand that

- I. Male mosquitoes and female mosquitoes have different eating habits
- II. Male mosquitoes are harmless to humans
- III. Female mosquitoes are responsible for transmitting diseases to humans

- | | |
|--------------------|-------------------|
| A. I only | B. I and II only |
| C. II and III only | D. I, II, and III |

3. In paragraph 2 the author writes, "This saliva may or may not contain a deadly disease." The purpose of this statement is to

- A. Oppose a previous argument
- B. Question an upcoming conclusion
- C. Confirm a hypothesis
- D. Support a later statement

4. As used in paragraph 2, minor most nearly means

- A. Insignificant
- B. Deadly
- C. frustrating
- D. Dangerous

5. Based on information in paragraph 3, it can be understood that if you get sick with malaria or yellow fever, your chances of survival are

- A. terrible
- B. mediocre
- C. good
- D. excellent

6. It can be understood that the introduction of dragonflies might reduce the number of flies in a given area because dragonflies

- A. work together with mosquitoes
- B. kill mosquitoes
- C. can not be killed by poisons or sprays
- D. attract bats

7. Which of the following best summarizes the information in paragraph 4?

- A. Mosquito nets provide adequate protection from deadly mosquitoes.
- B. Poisons and sprays provide adequate protection from deadly mosquitoes.
- C. The introduction of the mosquito's natural enemies provides adequate protection from deadly mosquitoes.
- D. There is no perfect solution to the mosquito problem

8. Which of the following words best describes the author's overall attitude towards the prospect of solving the mosquito problem?

- A. despondent, meaning hopeless or dejected
- B. exasperated, meaning extremely irritated or annoyed
- C. equivocal, meaning doubtful or uncertain
- D. optimistic, meaning hopeful or taking a favorable view

9. In paragraph 2 & 4, the word deadly is used, what is the synonym of the word deadly?

- A. Harmless
- B. Fatal
- C. Dangerous
- D. Poisonous

10. In paragraph 4, the word protect is used, which of the following options best matches the antonym of the word with respect to this paragraph?

- A. To unprotect
- B. To expose
- C. To Harm
- D. To neglect

Change the Voice from 11 to 15

11. There is no game to play.

- A. To be played there is no game.
- B. To play there is no game.
- C. There is a game to be played.
- D. There is no game to be played.

12. They greet me cheerfully every morning.

- A. Every morning I was greeted cheerfully.
- B. I am greeted cheerfully by them every morning.
- C. I am being greeted cheerfully by them every morning.
- D. Cheerful greeting is done by them every morning to me.

13. Who is creating this mess?

- A. Who has been created this mess?
- B. By whom has this mess been created?
- C. By whom this mess is being created?
- D. By whom is this mess being created?

14) By whom were you kidnapped?

- A. Whose kidnapped you?
- B. Who kidnaps you?
- C. Who kidnapped you?
- D. By who kidnapped you?

15) He was being elected as a president by people.

- A. People elected him president.
- B. People elected him as a president.
- C. People were electing him as a president.
- D. People were elected him as a president.

Change direct speech to indirect speech from 16 to 20

16. Kiran asked me, "Did you watch the cricket match on Television last night?"

- A. Kiran asked me whether I watched the Cricket match on television the earlier night.
- B. Kiran asked me whether I had watched the Cricket match on television the earlier night.
- C. Kiran asked me did I watch the Cricket match on television the last night.
- D. Kiran asked me whether I had watched the Cricket match on television the last night.

17. James said to his mother, 'I am leaving for New York tomorrow.'

- A. James told his mother that he was leaving for New York tomorrow.
- B. James told his mother he is leaving for New York tomorrow.
- C. James told his mother that he was leaving for New York the next day.
- D. James told his mother he would be leaving for New York the next day.

18. The priest said to them, "Be quiet and listen to my words."

- A. The priest said them to be quiet and listen to his words.
- B. The priest told them that they should be quiet and listen to his words.
- C. The priest urged them to be quiet and to listen to his words.
- D. The priest said they should be quiet and listen to him.

19. The tailor said to him, "Will you have the suit ready by the next evening?"

- A. The tailor asked him if he would have the suit ready by the next evening.
- B. The tailor asked him that he would had the suit ready by the next evening.
- C. The tailor asked him that he will have the suit ready by the next evening.
- D. The tailor asked him if he will like to the suit ready by the next evening.

20. Tariq said, "Hurrah! I have won the match"!

A. Tariq exclaimed with joy that he had won the match.

B. Tariq said with joy that he had won the match.

C. Tariq exclaimed with joy, he had won the match.

D. Tariq exclaimed with joy that he has won the match.

21. She is quite good mind reading.

A. In

B. At

C. With

D. By

22. He belongs small city of Sindh.

A. On

B. To

C. In

D. With

23. I am anxious my exam.

A. For

B. About

C. Over

D. Of

24. Error Detection: Find the error/no error in the sentence. "He shouted at his secretary and told her that he does not need her service."

A. he shouted at

B. and told her that

C. he does not need

D. No error

25. Error Detection: Find the error/no error in the sentence. "I have many friends and one of my friends are a doctor."

A. I have many friends

B. one of my friends

C. are a doctor

D. No error

PHYSICS – Part-II (for P.E, P.M, CS)

1. SI unit of resistivity is?

- A. Ohm
- B. Ohm meter
- C. ohm/meter
- D. meter/ohm

2. Work done can be calculated by taking

- A. Dot product of force and displacement
- B. Cross product of force and displacement
- C. Both Cross and dot product
- D. None of these

3. A body of mass 10kg is travelling with uniform speed of 5 m/s. Its kinetic energy is?

- A. 125 J
- B. 250 J
- C. 500 J
- D. 255 J

4. If a photon is absorbed by a nucleus the energy of nucleus

- A. Increase
- B. Decrease
- C. Remains same
- D. None of these

5. If a system has absorbed 2kcal of heat and done 500J of work then the change in its internal energy is?

- A. 8900J
- B. 8800J
- C. 7900J
- D. 7500J
- E. None of these

6. The value of triple point of water is?

- A. 1 K B. 100 K C. 273.16 K D. 0 K E. None of these

7. The speed of waves depends upon the

- A. Tension of the string
B. Tension and mass per unit length of the string
C. Diameter of the string
D. Mass per unit length of the string
E. None of these

8. The Length of a conductor is half. Its resistance will be?

- A. Halved B. Doubled C. Unchanged
D. Quadrupled E. None of these

9. Projectile motion of object on earth is always

- A. Linear B. Parabolic C. Cubic D. Inverse

10. Half wave rectifier passes only

- A. Lower half cycle B. Upper half cycle C. Both cycles D. None of these

11. Internal energy remains same throughout the process in

- A. Adiabatic Process B. Isothermal C. Cyclic Process D. Both A and B
E. None of these

12. X-rays are used to investigate

- A. Crystals B. Molecules C. Ions D. Electrons

13. The energy stored in a parallel plate capacitor is 3J. What is the capacitance of the capacitor if the potential difference between the plates is 220V?
- A. 124 μF B. 660 μF C. 75 μF D. 124 mF E. None of these
14. Motion that repeats itself after certain intervals of time is known as which type of motion
- A. Rectilinear motion B. Harmonic motion
- C. Circular motion D. Periodic motion
15. The angular speed of a flywheel making 210 revolutions per minute is:
- A. 15 radian/s B. 22 radian/s C. 44 radian/s D. 20 radian/s
16. An electric fan switched on in your room is said to be in motion, even though the fan is fixed to the ceiling. It is because –
- A. Fan is moving from place to place.
- B. The blades of fan changes its position with time.
- C. Both A and B are correct.
- D. None of these
17. What is the unit vector for $\mathbf{a}=4\mathbf{i}+3\mathbf{j}+5\mathbf{k}$?
- A. $(4\mathbf{i}/5\sqrt{2})+(3\mathbf{j}/5\sqrt{2})+(3\mathbf{k}/\sqrt{2})$ B. $(4\mathbf{i}/5\sqrt{2})+(2\mathbf{j}/5\sqrt{2})+(\mathbf{k}/\sqrt{2})$
- C. $(4\mathbf{i}/5\sqrt{2})+(3\mathbf{j}/5\sqrt{2})+(\mathbf{k}/\sqrt{2})$ D. $(4\mathbf{i}/5\sqrt{2})+(\mathbf{j}/\sqrt{2})+(\mathbf{k}/\sqrt{2})$ E. None
18. Which one is example of motion in two dimensions
- A. Landing of aeroplane B. Ball bouncing up and down
- C. Snake moving on a spherical rock D. None of the above

19. Which gas is linked to global warming?

- A. Carbon monoxide B. Sulphur dioxide
C. Carbon dioxide D. None of these

20. A student carries a bag weighing 5 kg from the ground floor to his class on the first floor that is 2 m high. The work done by the boy is

- A. 10J B. 100J C. 1J D. 500J

21. How many significant figures are there in a substance with a mass of 0.042 grams?

- A. 4 B. 2 C. 3 D. 5

22. An object is thrown vertically upward with a velocity of 20m/s. How much time will it take to reach the highest point?

- A. 2 sec B. 4 sec C. 1 sec D. Insufficient Information

23. The dimensions of Young's Modulus is?

- A. $M^2L^{-1}T^2$ B. $ML^{-1}T^{-1}$ C. $ML^{-1}T^{-2}$ D. $ML^{-2}T^{-2}$

24. A vector in space has dimensions

- A. 0 B. 1 C. 2 D. 3 E. None of these

25. A body will be in translational equilibrium if the vector sum of all the forces acting on it is:

- A. 0 B. Min C. Max D. Equal E. None of these

MATHEMATICS – Part-III (for P.E, CS)

1. The symbol which denotes the proper subset is

- A. $\supset$ B. $\subset$ C. $\subseteq$ D. $\supseteq$

2. The decimal representation are neither terminating nor repeating for:

- A. Rational numbers B. Irrational numbers
C. Quadratic fraction D. Linear fraction

3. $4i \times 2i = ?$

- A. $12i$ B. $4i$ C. $-2i$ D. -12 E. None

4. A takes 6 days less than B to finish a piece of work. If both A and B together can finish the work in 4 days, find the time taken by B to finish the work.

- A. 15 days B. 14 days C. 12 days D. 11 days

5. 60% of a number is 30 find the number.

- A. 60 B. 50 C. 70 D. 40

6. What is the Coefficient of independent term of x in expansion $(\sqrt{x} + 1/x^2)^{10}$

- A. 10 B. 45 C. 20 D. 90 E. None

7. Illahi Bux Tunio is a professor of Mathematics, Faiz Muhammad Shah is his student. The sum of the ages of Illahi Bux Tunio and Faiz Muhammad Shah is 56. Four years ago, the Illahi Bux was 3 times as old as the Faiz Muhammad. Find the current ages of Illahi Bux and Faiz Muhammad respectively.

- A. 16 & 12 B. 12 & 16 C. 17 & 39
D. 36 & 12 E. 40 & 16

8. A is two-thirds the way from (1, 10) to (-8, 4). find the coordinates of A.

- A. (5, 6) B. (6, 5) C. (-5, 6) D. (-6, 5) E. None

9. The value of $\lim_{x \rightarrow a} \frac{(x^n - a^n)^1}{x - a}$ is

- A. 1 B. 0 C. a^n D. na^{n-1}

10. The equation of a circle centered at (2,-1) with the radius 3 is:

- A. $(x-2)^2 + (y-1)^2 = 9$ B. $(x-2)^2 + (y+1)^2 = 9$
C. $(x+2)^2 + (y+1)^2 = 9$ D. $(x+2)^2 + (y-1)^2 = 9$ E. None

11. What does the word "Selection" represent?

- A. Combination B. Permutation
C. Probability D. Counting

12. Find the missing number in the given series: 1, 2, 6, 24, 120

- A. 240 B. 320 C. 720 D. 930

13. The sum of the first 100 terms of an A.P. is x and the sum of the 100 terms starting from the third term is y . Then the common difference is?

- A. $(y-x)/2$ B. $(y-x)/50$ C. $(y-x)/100$ D. $(y-x)/200$

14. The multiplicative inverse of $\sin x$ is:

- A. $1/\cos x$ B. $\cot x$ C. $\operatorname{cosec} x$ D. $1/\sec x$ E. None

15. At 9:30 the angle between hands of clock will be

- A. 90° B. 105° C. 75° D. 60° E. None

16. If a square matrix of order 4 and $|A| = 2$, then $|\operatorname{Adj}(\operatorname{Adj}(A))| =$

- A. 8 B. 256 C. 512 D. None of these

17. If $axb=3ab$ then inverse of 2 under x is

- A. $\frac{1}{2}$ B. -2 C. 512 D. $\frac{1}{18}$ E. None

18. General term of the sequence $a+1, 2a, 3a-1, \dots$ is

- A. $n(a+1)$ B. $na+1$ C. $na-n+2$ D. $na-3$

19. In how many ways 2 ladies and 4 be seated at round table, so that 2 ladies not together:

- A. 120 B. 240 C. 720 D. 72

20. Range of $3\sec 2x$ is

- A. $R-\{-1 < x < 1\}$ B. $R-\{-2 < X < 2\}$ C. $R-\{-3 < X < 3\}$ D. R

21. The Equation $x^2-y^2=0$ represents

- A. Parabola B. Hyperbola
C. Ellipse D. Two lines passing through the origin

22. The distance between equation $x+y+2=0$ and $(1,2)$ is

- A. 4 units B. 9 units C. 5 units D. $5/\sqrt{2}$ units

23. Two coins are tossed simultaneously then the probability of getting least one tail is....

- A. $\frac{2}{4}$ B. $\frac{1}{4}$ C. $\frac{3}{4}$ D. $\frac{4}{4}$

24. The distance between the center of a circle and any point of the circle is called....?

- A. Tangents B. Secant C. Diameter D. Radius

25. Slope-intercept form of equation of a straight line:

- A. $x/a + y/b = 1$ B. $y=m+cx$ C. $y=mx + c$ D. $y=m+cm$

BIOLOGY- Part- III (for Pre.Med)

1. The study of cell at molecular level is called?
 - A. Morphology
 - B. Palaentology
 - C. Molecular biology
 - D. A.O.T
2. Microbiology deals with the study of?
 - A. Virus
 - B. Bacteria
 - C. Algae
 - D. AOT
3. Marine biology deals with the study of?
 - A. Protozoa
 - B. Algae
 - C. Sea and Ocean
 - D. N.O.T
4. Social biology deals with the study of?
 - A. Service industry
 - B. Communication
 - D. A.O.T
5. Highly organised organisms are made up of?
 - A. One or more cell
 - B. One cell
 - C. Two cell
 - D. Three cell
6. Which can response to chane in environment?
 - A. living organisms
 - B. Non living organisms
 - C. A.O.T
 - D. N.O.T
7. Environmental biology deals with the study of?
 - A. Relationship of organisms with society
 - B. Relationship of organisms with environment
 - C. Relationship of organisms with technology
 - D. N.O.T
8. Physical and chemical parameters of water bodies is called?
 - A. Ecobiology
 - B. Parasitology
 - C. microbiology
 - D. Fresh water biology

9. The study of mode of transmission belongs to?
A. Human biology
B. Biotechnology
C. Sociology
D. Microbiology
10. The number of naturally occurring elements are?.
A. 92
B. 93
C. 94
D. 95
11. How many chemical reactions are possible in human body to maintain its life?
A. Hundred
B. Thousand
C. Million
D. Billion
12. How many elements are used in forming of chemical compound?
A. 92
B. 94
C. 16
D. 17
13. Highly structure protoplasm is?
A. General substance
B. Living substance
C. Non living substance
D. A.O.T
14. The start of studying of biological organization of at different levels forms?
A. Subatomic particles
B. Community
C. Atomic particles
D. Both a and c
15. A combination of atom belong to
A. Atom
B. Micromolecule
C. Macromolecule
D. N.O.T
16. Organs are composed of
A. Tissue
B. Cell
C. Units
D. A.O.T
17. The properties of chemical elements differ from one another is?
A. Non living word

- B. living word
- C. N.O.T
- D. A.O.T

18. Biological organizations have ?

- A. Number of process
- B. Degree of complexity
- C. Regulatory function
- D. A.O.T

19. Number of species inhabiting the same area is called?

- A. population
- B. community
- C. N.O.T
- D. A.O.T

20. Micro molecules having low molecular weight are

- A. Oxygen
- B. Starch
- C. Protein
- D. CO₂, H₂O

21. Glucose and amino acids are?

- A. Organic
- B. Inorganic
- C. N.O.T
- D. A.O.T

22. Fungi, animals and plants are consist of

- A. Thousand cells
- B. Million cells
- C. Trillion cells
- D. A.O.T

23. A group of similar _____ forms organ?

- A. Cells
- B. Tissues
- C. unit
- D. structure

23. _____ have limited number of organelles?

- A. prokaryotes
- B. Eukaryotes
- C. A.O.T
- D. N.O.T

24. In animals coordination is achieved by means of?

- A. Respiratory system
- B. digestive system
- C. nervous system
- D. reproductive system

25. long term activities in plants are brought by?

- A. Hormones.
- B. Neurons
- C. Minerals
- D. Organs

CHEMISTRY – Part-IV (P.E & P. MED)

1. The Noble gas have

- A. Very Low ionization energies
- B. High boiling points
- C. No Electron pair interaction
- D. No Van Der Waals forces

2. Potassium Permanganate is

- A. A Powerful reducing agent
- B. A powerful oxidizing agent
- C. A redox agent
- D. An alkaline compound

3. The following is an alcohol

- A. $\text{CH}_3 - \text{CH} - \text{OH}$
- B. $\text{CH}_3 - \text{O} - \text{OH}$
- C. CH_3COOH
- D. $\text{CH}_3 - \text{CH}_2 - \text{Br}$

4. The volume of a gas at 0 degree centigrade is 100cm^3 What will be the volume of the same gas at 546°C assuming that pressure remain constant ?

- A. 5460cm^3
- B. 300cm^3
- C. 200cm^3
- D. 546cm^3

5. The following functional group is present in both aldehyde and ketones?

- A. Carbonyl
- B. Hydroxyl
- C. Oxyboron
- D. None of these.

6. Strongest reducing agent?

- A. $\text{C}_2\text{H}_5\text{CHO}$
- B. C_3H_6
- C. Ketone and HNH_3
- D. CH_3COCH_3

7. _____ in the presence of NaOH .

- A. Methanol
- B. Ethanol
- C. Propanol
- D. Butanol

8. Iodoform is a _____ solid

- A. White
- B. yellow
- C. Black
- D. Blue

9. Alcohol can be diagnosed by _____ test.

- A. Grignard
- B. Dow
- C. Lucas
- D. Perry

10. Oxidation of _____ Alcohols.

- A. Primary
- B. Secondary
- C. Tertiary
- D. Long chain

11 The last digit of a number is generally considered uncertain by ± 1 in the absence of qualifying information.

- A. +1
- B. - 1
- C. +/-1
- D. None of these

12. $C + O_2 \rightarrow CO_2$, when 13 g of carbon is treated with 45g oxygen to produce CO_2 , the _____ is limiting reactant.

- A. Carbon
- B. Oxygen
- C. Both A & B
- D. None of these

13. The _____ mass of NaCl is 58.

- A. Molar
- B. Molecular
- C. Both A & B
- D. None of these

14. A process in which a gaseous substance changes into liquid substance is called _____

- A. Melting
- B. Boiling
- C. Condensation
- D. None of these

15. $273^\circ C =$

- A. Zero K
- B. 273K
- C. 546K
- D. None of these

16. A container is filled with CO_2 & H_2 gas, then which gas is assigned as r_1 According to Dalton's law of partial pressure?

- A. H_2
- B. CO_2
- C. $CO_2 + H_2$
- D. None of these

17. The mass of atmosphere on our body at sea level at 0°C is _____

- A. 1 atm
B. 760 torr
C. 14.7 psi
D. None of these

18. This graph shows the ____ in volume when pressure is increased.

- A. Increase
B. decrease
C. constant
D. None of these

19. Anode rays are produced from

- A. Anode
B. cathode
C. both a & b
D. None of these

20. An anion is larger than its parent atom in atomic size

- A. Smaller B. larger C. same D. none of these

21. How many chemical bonds are present in O_2 molecule?

- A. 1 B. 2 C. 4 D. none of these

22. kc is a ratio of

- A. reactant/product
B. product/reactant
C. both a & b
D. None of these

23. If a solution has $\text{pH}=0$ then the solution is _____ in nature.

- A. Acidic B. basic C. neutral D. None of these

24. Activation energy is inversely proportional to the rate of reaction.

- A. Directly B. inversely C. neutral D. None of these

25. An element which has ns^2 -electronic configuration is placed in group of Modern periodic table.

- A. Alkali metals
B. Halogen
C. Alkaline earth metals
D. none of these

COMPUTER SCIENCE – PART-IV (for CS students)

1. A light sensitive device that converts drawing, printed text or other images into digital form is

- A. Keyboard B. Plotter C. Scanner D. OMR

2. In how many generations a computer can be classified?

- A. 3 B. 4 C. 5 D. 6

3. What is smallest unit of the information?

- a. A bit
b. A byte
c. A block
d. A nibble
