DEPARTMENT OF CYBER SECURITY

Submission Date: 16 Dec 2025

TOTAL MARKS: 2.5

Assignment # 02

- Q#1.** Explain how ICT productivity tools such as word processors, spreadsheets, and presentation software improve efficiency in school or workplace tasks
- Q#2.** What are the risks and challenges associated with online banking and mobile wallet use? How can users stay safe?
- Q#3.** How do e-learning platforms (e.g., Google Classroom, Moodle) help students become independent learners? Give examples.
- Q#4.** Describe at least three good online etiquette practices and explain why each one is important.
- Q#5.** Explain the importance of electronic health records (EHRs) in modern hospitals and clinics.
- Q#6.** Discuss the challenges healthcare facilities face when adopting ICT systems.
- Q#7.** Discuss how young people can stay safe from online threats such as scams, cyberbullying, or identity theft.
- Q#8.** Compare traditional classroom learning with ICT-enhanced learning. What are the advantages and disadvantages of each?
- Q#9.** Describe how database tools are used in schools, offices, or businesses to manage information efficiently.
- Q#10.** Discuss why ethical behavior is important when using ICT tools and platforms. Provide examples of ethical and unethical practices.
